Madhya Pradesh, India

Summary

Frontend Developer with hands-on experience building responsive and user-friendly web applications using React.js, JavaScript, HTML5, and CSS3. Skilled in developing reusable UI components, integrating REST APIs, and optimizing application performance. Experienced with Git, GitHub, and modern deployment platforms such as Vercel and Netlify. Passionate about creating clean, accessible, and high-performance user interfaces while collaborating effectively with back-end services.

Technical Skills

Languages: JavaScript (ES6+), HTML5, CSS3, Java

Frontend: React.js, React Hooks, React Router, Tailwind CSS, Responsive Web Design, CSS Flexbox, CSS Grid

API Integration: REST APIs, Axios, Fetch API, JSON

State Management: React Context API, useState, useEffect

Backend Basics: Spring Boot, Node.js, Express.js

Databases: MySQL, MongoDB (Basic), PostgreSQL

Tools: Git, GitHub, VS Code, Postman, Chrome DevTools

Deployment: Vercel, Netlify, Render

Projects

RAKSHAK — Human Safety System — *React.js, Spring Boot, MySQL*

[Live Demo](#) — [GitHub](#)

- Developed a responsive React.js application using reusable components and React Hooks for civil users and police responders.
- Integrated REST APIs using Axios for authentication, emergency alerts, location tracking, and user management.
- Implemented secure JWT-based login and role-based navigation for different user types.
- Designed responsive layouts using CSS Flexbox and Grid to provide a seamless experience across desktop and mobile devices.
- Collaborated with the Spring Boot backend to enable real-time emergency communication and alert management.

SAMVARDHAN SAUDHAMINI — Home Automation — *HTML, CSS, JavaScript, JSP*

[GitHub](#)

- Built a user-friendly interface for monitoring and controlling 5+ home appliances in real-time.
- Designed fully responsive layouts ensuring consistent UX across mobile and desktop devices.
- Improved UI interaction flow for real-time device status updates, reducing user action steps by 40%.

Experience

Frontend Developer

2024 – Present

Academic Projects — Gwalior, Madhya Pradesh

- Developed responsive and user-friendly web applications using React.js, JavaScript, HTML5, and CSS3.
- Built reusable React components using Hooks (useState, useEffect, useContext) and React Router for efficient navigation.
- Integrated REST APIs using Axios and Fetch API to display dynamic data and improve application functionality.
- Collaborated with Spring Boot backend services to implement authentication, dashboard features, and real-time data updates.
- Improved application performance by optimizing component rendering, code organization, and responsive layouts.
- Used Git and GitHub for version control, collaboration, and project management.
- Tested and debugged frontend applications using Chrome DevTools and Postman to ensure smooth user experience.

Education

Amity University, Gwalior, Madhya Pradesh — B.Tech in Computer Science

2022 – 2026

CGPA: 6.84

New Adarsh H.S. School (MPBSE) — Class XII

2021

Percentage: 85.2%

New Adarsh H.S. School (MPBSE) — Class X

2019

Percentage: 86.8%
